The Future Generation Art Prize is a biannual global contemporary art prize to discover, recognize and give long-term support to a future generation of artists.

The Prize is an innovative international award for artists up to 35 years of age of all backgrounds, working in any medium, investing in the artistic development and new production of works. Awarded through a competition, judged by a distinguished jury, the Prize is founded on the idea of generosity, a network of outstanding patron artists and institutional partners, and a highly democratic application procedure.

All works of art, regardless of category or media are eligible for submission.

A highly respected selection committee appointed by a distinguished international jury reviews every application and nominates 20 artists for the shortlist.

These artists will be commissioned to create new works on view in exhibitions at the PinchukArtCentre in Kyiv and the Venice Biennale.

There is no entry fee.

ELIGIBILITY

All artists worldwide between 18 and 35 years of age at the time of application may apply with their work without any restrictions concerning gender, nationality, race or artistic medium.

PRIZE

The main prize winner receives 100,000 USD split between a 60,000 USD cash prize and a 40,000 USD investment in their practice. A further 20,000 USD is awarded as a special prize/s between up to five artists at the discretion of the jury for supporting projects that develop their artistic practice.
