The International Awards Associate (IAA) is calling for entries to the 2021 International Vega Student Awards — a brand-new awards program from their Vega series.

Vega Student Awards intends to inspire young talents to ride the wave of this new era and make a name for themselves before approaching the professional world.

Named after one of the brightest stars, the Vega Student Awards was created to recognize and honor exemplary young talents and the minds behind remarkable digital content. Branching off from that, the Vega Student Awards adopts that role for students – an arena solely catered to budding talents who yearn for more.

Entry fees start from 25 USD.

ELIGIBILITY

Open to new and emerging digital creatives aged 18 or over without prior or significant experience in a paid creative role. To enter as a student, you must be enrolled full or part-time on a recognized Higher Education level course, anywhere in the world, on 1 January 2021.

PRIZE

One professionally designed certificate commemorating the winning entry, which includes entry title, entering company/winners' name and category + Dedicated winners' page for all Vega Student Awards' Winners + Highest-tiered (Canopus) winners will be featured on Vega Awards site's Gallery, where professionals can view your work.
