

5th Poster for____. International Poster Competition

Category: [Graphic Design](#)

Deadline: July 31, 2026

Website: graphiccompetitions.com

The 5th Poster for____. International Poster Competition is the latest edition of the international poster design contest run by Poster For____. The competition invites poster makers to use visual communication as a way to express a stance, raise awareness and respond to issues that matter in contemporary society.

For 2026, the competition is organized around six categories: Poster for Climate, Poster for Technology, Poster for Art, Poster for Culture, Poster for 17 UN SDGs Topics, and Drawing/Art. The Drawing/Art category is specifically for hand-drawn poster topics connected to the other categories, with digital drawing not preferred.

Entrants submit their posters by email, following the competition's technical format and file-naming requirements. With its emphasis on public-interest themes, social awareness and poster-based visual storytelling, the competition is suited to designers and artists who want to develop strong graphic messages for an international audience.

Entry fee: \$40 per submission.

Eligibility

Open to designers and artists worldwide; Category F, Drawing/Art, is for hand-drawn posters by entrants under 19, and all submissions must follow the stated poster format and technical requirements.

Prize

The golden winner in each category will receive a trophy, and all awarded designers will receive an Award Certificate by email. More than 200 awarded and selected designers will receive certificates, selected posters will be exhibited on a Times Square billboard in New York City, and selected work will be permanently showcased on the PosterFor website and exhibition record.
