Website: <https://graphiccompetitions.com/>

Adobe Creative Residency applications have opened for the next class of creators.

Young creatives need career guidance and financial support like never before, and this selective annual program provides the opportunity to proactively pursue personal creative projects with access to the best creative tools and resources, along with guidance from Adobe advisors and a compensation package.

The motto of the Creative Residency programme is “Create. Share. Activate. Empower.” As always, the creators selected will be passionate about creating personally fulfilling work, sharing their journeys and activating fellow creatives to craft the careers they want by empowering them with knowledge.

Deadline for applications: March 16, 2021.
