Adobe has released today the brand new app Fresco, a next-generation painting and drawing app for the iPad. Designed for professional-quality work but easy enough for anyone to use, Fresco offers sharp, clean, infinitely scalable vector brushes, versatile and adaptable Photoshop brushes.

Adobe Fresco also features a new category of Live Brushes powered by Adobe Sensei - Adobe's artificial intelligence and machine learning technology - that uncannily recreate the experience of painting with oils or watercolors wherever you are.

You can start for free.
