Circle Of Light Art Vision 2017 Open Call

Category: <u>Multiple Disciplines</u>
Deadline: August 10, 2017

Website: graphiccompetitions.com

Organised by *Circle of Light Moscow International Festival* - an annual event at which lighting designers and specialists in audiovisual art from various countries reinvent the architectural scene of Moscow by using video mapping - **Art Vision** is an international contest of **2D or 3D mapping projections** on a facade of buildings playing up its geometry and architecture.

There are three main categories:

• Classic • Modern • VJing

The key requirement of the **Classic** category is usage of effects, artistic techniques and original ideas how to integrate the entry work with the architectural peculiarities of the facade of Bolshoi Theater. This year's theme is: *Freestyle*.

The key requirement of the **Modern** category is usage of the modern techniques, instruments, and implementation of the contemporary art, entertainment and show trends. Works may be based on generative graphics or may be a prerecorded video clip.

The key requirement of the VJing category is that contestants perform a 10 minute VJ set to a live DJ set (background music).

The number of works by a single author or group of authors is limited to one. Dates of the live competition in Moscow: *September 23 - September 27*, 2017.

There is no entry fee.

Eligibility

Open worldwide to professionals, students, creative teams, design studios, etc.

Prize

Winners are awarded with certificates of three types:

• Winner Certificate • Runner-up Certificate • Second Runner-up Certificate

Moreover, *Special Certificates* are prepared by the Festival Organizing Committee to support the video mapping works included in the competition list.
