来源: GRAPHIC COMPETITIONS

Run by the Head On Foundation, a non-profit organization in Australia, the Head On Photo Awards seek the best work from emerging and established photographers across three categories:

- Portrait: the image must feature or reflect the essence of a person or group of people and must be photographed by the Applicant. Group portraits, self-portraits and collages are accepted.
- Landscape: Head On's approach to 'Landscape' is very broad and encompasses 'large vista' images of the natural environment (land or sea), urban or industrial settings. It may include people, but these should be 'incidental' rather than the main subject matter.
- Student: open to year K-12 students enrolled in an Australian school or are homeschooled within

Australia. Students may also enter the Portrait and Landscape categories.

Images must be produced by a photographic device (including mobile devices) that captures images (experimental processes welcome), in colour and/or black & white. You may enhance the image and apply filters. Copyright in the images remains the property of the photographer.

Entry fee: 30 AUD (approx. 21 USD) per image.

ELIGIBILITY

Open worldwide to photographers of all levels.

PRIZE

The Head On Photo Awards winners will share a massive prize pool, previously reaching 70,000 AUD, including 30,500 AUD cash.
