

Head On Photo Awards 2023

Category: [Photography](#)

Deadline: July 16, 2023

Website: graphiccompetitions.com

Run by the Head On Foundation, a non-profit organization in Australia, the Head On Photo Awards seek the best work from emerging and established photographers across three categories:

- **Portrait** - The image must feature or reflect the essence of a person or group of people and must be photographed by the Applicant. Group portraits, self-portraits and collages are accepted. We encourage all photographic styles and interpretations of photographic portraiture.
- **Landscape** - Our approach to 'landscape' is very broad and encompasses 'large vista' images of the natural environment (land or sea), urban or industrial settings. It may include people, but these should be 'incidental' rather than the main subject matter. We encourage all photographic styles and interpretations of 'landscape'.
- **Environmental** - Images should highlight specific issues, elements or people impacting the natural world and our environment's wellbeing, including, but not limited to, human-induced climate change, biodiversity and habitat loss, sustainable practices, pollution, ocean acidification and micro-diversity.

Images must be produced by a photographic device (including mobile devices) that captures images (experimental processes welcome), in colour and/or black & white. You may enhance the image and apply filters. Copyright in the images remains the property of the photographer.

Entry fee: 30 AUD (approx. 20 USD) per image.

Eligibility

Open worldwide to photographers of all levels.

Prize

The 2023 Head On Photo Awards winners shared a massive prize pool in excess of 70,000 AUD, including 30,500 AUD in cash. All 120 finalists had their work exhibited in print in Head On Photo Festival 2023.
