The 6th edition of the **International Design for All Foundation Awards** recognise achievements in the field of design for all, great and small, by governments, businesses, not-for-profit organisations and professionals from all over the world.

In so doing, they aim to demonstrate that the implementation of design for all/universal design in any form contributes towards improving quality of life for everyone.

Each year an international jury will select the 5 "*Best Practices*" out of all the *Good Practices* submitted to be presented with the *International Design for All Foundation Award*. These will be the examples which stand out in terms of their impact and which indicate the way ahead for better implementation of design for all/universal design.

Candidates may submit entries in one of the following categories:

â€¢ Space, products and service already in use

â€¢ Projects, proposal, initiatives, methodologies and studies

Entry is free to members of the *Design for All Foundation* and to members of the *European Network of Living Labs* (ENoLL).

Non-members should pay the following fee:

â€¢ 250 Euro if the final user/client does not have to pay anything to use the service or product.

â€¢ 1,000 Euro if the final user has to pay to obtain or use the product or service.

Should your organisation be unable to afford the entry fee, you can contact the *Design for All Foundation* to let them consider your situation.
