James Dyson Award 2022

Category: Multiple Disciplines
Deadline: July 6, 2022
Website: graphiccompetitions.com

The **James Dyson Award** is an international design award that celebrates, encourages and inspires the next generation of design engineers. The competition is open to current and recent design engineering students, and is run by the James Dyson Foundation.

The brief for 2022 is â€™Design Something That Solves a Problemâ€™. Entrants are asked to think differently, to create products that work better. This year the James Dyson Award will also looking for entries that address a sustainability issue, or have been designed, sourced or manufactured sustainably.

If you donâ€™t want to work alone, or if you studied something else but have a brilliant idea you want to share, you can still enter as part of a team.

You can enter as many projects as you want, and you are encouraged to enter your design even if itâ€™s at the latter stage of the design process or is already on the market. At all times, the intellectual property in relation to the project will remain the entrantâ€™s.

There is no entry fee.

Eligibility
Open to current university students of engineering, product design and industrial design â€" and those who have graduated in these subjects in the last four years.

Prize
Two awards of **30,000 GBP** *(approx. 40,650 USD)* each will be awarded to the International and the Sustainability winner. In addition, International runners up and a National winner will be selected.
