Organised by Leica Camera, the Leica Oskar Barnack Award awards photographers whose unerring powers of observation capture and express the relationship between man and the environment in the most graphic form, in a sequence of a minimum of 10 up to a maximum of 12 images.

There are two categories:

- Leica Oskar Barnack Newcomer Award (open to all future professional photographers who are not older than 28 years)

Entry submissions must be a self-contained series of images in which the photographer perceives and documents the interaction between man and the environment with acute vision and contemporary visual style – creative, groundbreaking and innovative.

Participants must send in a series of photographs taken in 2018/2019 or long-term projects containing at least one photo from 2018. Only one entry per

photographer is accepted.

Entries will be accepted exclusively as online submissions between March 1 and April 1, 2019. All digital images prepared for uploading must be 1200 pixels high. The width of the image is variable in proportion.
