SOURCE: GRAPHIC COMPETITIONS

The Nikon Photo Contest has been held by Nikon Corporation since 1969 to provide an opportunity for photographers around the world to communicate and to enrich image-making culture for professionals and amateurs alike.

In the last 10 years, with the wide penetration of digital cameras with video capabilities, the environment surrounding image-making has dramatically changed. Adapting to this change, the 34th contest was reconceived, changing its name and its structure, and it continues to evolve to create new standards and provide new opportunities for discovery.

This year for the first time, all categories in photography and video will accept entries from any digital device, including smartphones.

Entry Categories (Photography section):

• Theme "HOME", single photo • Theme "HOME", photo story (two to five images) • Open theme, single photo • Open theme, photo story (two to five images)
