Coming *May 2019*, the annual **Pictoplasma Festival** turns Berlin into the world's epicentre of character design and art and a vibrant meeting point for a diverse scene of international artists, illustrators, filmmakers, and game, graphic or product designers.

Cutting edge screenings bring the latest animation to the big cinema screen, numerous exhibitions throughout the city present original works and outstanding character craftsmanship, and performances put the characters into direct play with the audience.

At the heart of the Festival, the central **Pictoplasma Conference** presents 20+ key lectures by the world's most influential artists and upcoming talents, cutting-edge graphic, toy and game designers and leading animation filmmakers, offering the chance to learn from and be inspired by some of today's most innovative and avant-garde artists.

The accompanying **Festival exhibitions** stage new work by an impressive line-up of participating artists – presenting sculptures, paintings, installations, art editions and multiples – many of them for the first time in Berlin.
