SOURCE: GRAPHIC COMPETITIONS

Posterheroes is an international contest about social communication that calls for posters about social and environmental issues. Every year, Posterheroes invites students, professional designers, and everyone who is into graphic design to create a poster about topics of social interest.

This year's theme is MINDFUL OR MIND FULL?

We live in an era of information overload where people must continually reskill, upskill and get new skills. Learning follows the accelerated pace of technological progress, leaving behind those who cannot keep up. It is time to change the paradigm in favour of slow and sustainable learning that aims to train conscious individuals in the name of cooperation, respect, and solidarity. Posterheroes propose to reflect on the limits of current learning models and imagine future ones.

The winning posters are selected by a selection panel comprising international experts in the field of illustration, animation, arts, visual communication.

There is no entry fee.
