SOURCE: GRAPHIC COMPETITIONS

In support of the song Shadows After Dark, released on November 27th, 2020, VP Records, the International Reggae Poster Contest and the Jamaican Ministry of National Security have partnered to raise awareness of Human Trafficking through visual art.

The song encourages all of us to be careful about who we trust. The recruiting, transporting, transferring, receiving and harbouring of a person by force, coercion or other means for the purpose of exploitation are all gross violations of human rights. Human trafficking is a reality in Jamaica and worldwide.

Artists/designers can submit an unlimited number of original and unpublished posters.

There is no entry fee.

ELIGIBILITY

Open to all graphic designers and artists worldwide.

PRIZE

Visual art is a powerful tool. You can save one more child or one more person from harm by raising awareness of Human Trafficking through visual art.
