The Comedy Wildlife Photography Awards are looking for funny wildlife images. The winner will be the picture, which, in the opinion of the judges, combines the best technical excellence with the most amusing content and caption.

There are six categories:

• The Alex Walker's Serian Creatures of the Land Category • The Spectrum Creatures in the Air Category • The ThinkTank Photo Junior Category • The Amazing Internet Portfolio Category • The Olympus Underwater Category • The Video Clip Category

You can enter up to a total of 6 images, with a maximum of three images into each category, plus 4 images into the Portfolio Category and up to two video clips of no more than 60 seconds into the Video Clip Category. Each of the photographs entered must be in JPEG format, under 4MB per image. If you reach the finals, we will also require high-resolution versions and the raw images or the original file the photo was taken on.

There is no entry fee.
