SOURCE: GRAPHIC COMPETITIONS

The YCN Student Awards annualy shine a light on emerging creative excellence; and run closely alongside leading Universities, Colleges and Art & Design schools internationally. The awards are based around a collection of live creative briefs; written each year by partnering organisations.

The Awards enable all those that take part to benefit from engaging with thoroughly contemporary communication challenges, and give increased confidence, visibility and employability to all those that excel within them.

Work submitted in response to each brief is closely examined by the brands and organisations that wrote it, often alongside the agencies with whom they work. They are asked to draw up a shortlist of the submissions felt to be the most outstanding from all those received in response to their brief. There are no first, second or third place style nominations, if you have been Commended this means your work has been chosen as one of the most outstanding entries to that particular brief and you will be Commended alongside a selected number of other entries for your brief.

You may submit work as an individual or as a team. Teams can consist of as many people as you wish. All submissions must be in the English language.

There is no entry fee.

ELIGIBILITY

Submissions are invited from anyone in full-time or part-time education, anywhere in the world.

PRIZE

Commended entrants are awarded at a splendid Ceremony each year; and all commended work is showcased in the pages of the YCN Student Annual. 15,000 copies of the Annual are distributed across education, and across the creative industries.
