

Art For Planet Earth Design Competition

Category: [Graphic Design](#)

Deadline: August 20, 2020

Website: graphiccompetitions.com

Art for Planet Earth is a biannual design competition with change at its heart. It is about stimulating a shift in the mindset of creatives to encourage responsible thinking. And allowing you to contribute your creativity toward change.

For this debut edition, we give you a reusable glass bottle as a canvas to unleash your thoughts about global warming, climate change and our responsibility for the world. A design from the heart to motivate others in this critical age.

All submitted works will be judged by an international jury, and all will appear in a 3D mock-up that will be visible on the APEâ€™s Gallery and open for public voting.

You can submit a maximum of three bottle designs, entry fee is 15 GBP (*approx. 18 USD*) per submitted artwork.

Eligibility

Open to everyone worldwide over 18 years of age.

Prize

Win a **Wacom Intuos Pro** creative pen tablet; receive esteemed industry recognition; and see your artwork printed onto one of three limited-edition water bottles.

The three winning artworks will be printed onto eco-friendly reusable glass bottles that will be available in APEâ€™s online webshop for purchase. For every bottle sold, Art for Planet Earth will donate **20%** of all proceeds to 350.org, WWF UK and The Climate Coalition.
