

BenQ Creative Pro Setup Contest 2026

Category: [Multiple Disciplines](#)

Deadline: April 30, 2026

Website: graphiccompetitions.com

The BenQ Creative Pro Setup Contest 2026 invites creatives to design their ideal workspace using BenQ Creative Pro products, combining imagination with professional-grade tools. Organized by BenQ Europe, the competition encourages participants to visualize a dream desk setup through a single image or short animation, integrating specified products into an official contest frame. Entries are submitted via Instagram, turning social engagement into a central part of the creative process.

Participants are required to include at least three BenQ products (a Creative Pro monitor, a ScreenBar Halo 2, and a BenQ Ergo Arm) within their composition. Submissions can be created using software such as Adobe Photoshop or similar editing tools, and while minor AI-assisted corrections are allowed, generative AI additions are restricted. After submission, the most engaging entries advance to a final judging stage evaluated by a panel of industry professionals.

The contest highlights both technical skill and conceptual thinking, rewarding originality, composition, and storytelling in workspace design. By focusing on how creators envision their ideal environments, the competition reflects BenQ's emphasis on productivity, ergonomics, and visual precision, offering participants a chance to showcase their creative vision in a real-world design context.

Entry fee: Free entry

Eligibility

Open to individuals aged 18 or over residing in Austria, Belgium, France, Germany, Ireland, the Netherlands, Spain, and the United Kingdom, submitting one original work created by themselves.

Prize

The competition awards three main winners selected by a judging panel. The first prize includes a Creative Pro monitor, a ScreenBar Halo 2, and a BenQ Ergo Arm with delivery included. The second prize consists of a monitor and an Ergo Arm, while the third prize winner receives a BenQ monitor. In addition, the top 20 finalists receive

individual discount codes for selected BenQ products, and the organizer may grant additional special mention awards at its discretion.
