

Circle Of Light Art Vision 2017 Open Call

Category: [Multiple Disciplines](#)

Deadline: August 10, 2017

Website: graphiccompetitions.com

Organised by *Circle of Light Moscow International Festival* - an annual event at which lighting designers and specialists in audiovisual art from various countries reinvent the architectural scene of Moscow by using video mapping - **Art Vision** is an international contest of **2D or 3D mapping projections** on a facade of buildings playing up its geometry and architecture.

There are three main categories:

â€¢ **Classic**

â€¢ **Modern**

â€¢ **VJing**

The key requirement of the **Classic** category is usage of effects, artistic techniques and original ideas how to integrate the entry work with the architectural peculiarities of the facade of Bolshoi Theater. This year's theme is: *Freestyle*.

The key requirement of the **Modern** category is usage of the modern techniques, instruments, and implementation of the contemporary art, entertainment and show trends. Works may be based on generative graphics or may be a prerecorded video clip.

The key requirement of the **VJing** category is that contestants perform a 10 minute VJ set to a live DJ set (*background music*).

The number of works by a single author or group of authors is limited to one. Dates of the live competition in Moscow: *September 23 - September 27, 2017*.

There is no entry fee.

Eligibility

Open worldwide to professionals, students, creative teams, design studios, etc.

Prize

Winners are awarded with certificates of three types:

â€¢ **Winner Certificate**

â€¢ **Runner-up Certificate**

â€¢ **Second Runner-up Certificate**

Moreover, *Special Certificates* are prepared by the Festival Organizing Committee to support the video mapping works included in the competition list.
