

Circle Of Light Art Vision 2018

Category: [Multiple Disciplines](#)

Deadline: August 10, 2018

Website: graphiccompetitions.com

Organised by *Circle of Light Moscow International Festival* - an annual event at which lighting designers and specialists in audiovisual art from various countries reinvent the architectural scene of Moscow by using video mapping - **Art Vision** is an international contest of **2D or 3D mapping projections** on a facade of buildings playing up its geometry and architecture.

There are three main categories:

â€¢ **Classic**

â€¢ **Modern**

â€¢ **VJing**

The key requirement of the **Classic** category is the use of effects, artistic techniques and original ideas how to integrate the entry work with the architectural peculiarities of the facade of Bolshoi Theater. This year's theme is: *Freestyle*.

The key requirement of the **Modern** category is the use of the modern techniques, instruments, and implementation of the contemporary art, entertainment and show trends. Works may be based on generative graphics or a prerecorded video clip.

The key requirement of the **VJing** category is that contestants perform a 10 minute VJ set to a live DJ set (*background music*).

The number of works by a single author or group of authors is limited to one. Dates of the live competition in Moscow: *21 - 25 September 2018*.

There is no entry fee.

Eligibility

Open worldwide to professionals, students, creative teams, design studios, etc.

Prize

Winners are awarded with certificates of three types:

â€¢ **Winner Certificate**

â€¢ **Runner-up Certificate**

â€¢ **Second Runner-up Certificate**

Moreover, *Special Certificates* are prepared by the Festival Organizing Committee to support the video mapping works included in the competition list.
