SIGGRAPH 2018 Vancouver

Category: [Events](#)
Website: https://bit.ly/2pPvPhZ

The 45th **SIGGRAPH** conference, world's leading annual interdisciplinary educational event showcasing the latest in computer graphics and interactive techniques, will take place *August 12-16* at the Vancouver Convention Centre.

This year they are celebrating **generations**, a theme that has several connotations based on the really rich history of SIGGRAPH. In the literal sense, it refers to the fact that pioneers in computer graphics from previous decades attend SIGGRAPH each year, standing shoulder-to-shoulder with the world's newest and youngest researchers and practitioners. The term *generations* is also a nod to the generations of software and hardware that keep getting better, faster, and more amazing every few years. Additionally, SIGGRAPH also 'generates' new ideas and connections, which is essentially the whole purpose of the conference.

The SIGGRAPH 2018 will showcase the best in computer art and design, the bleeding edge of technology and research in graphics, from every corner of the globe.
