

SIGGRAPH 2019

Category: [Events](#)

Website: <http://bit.ly/2VWMAa7>

Every year, SIGGRAPH features global innovators who are changing what's possible in computer graphics, animation, VR, games, and emerging technologies.

From the latest visual effects and animation technology to VR and game design, SIGGRAPH 2019 offers courses, talks, and panels that make for a crash course in the latest research and techniques.

At the exhibition, explore the latest technology that's changing the workplace for CG and VFX professionals, and throughout the conference see how visionaries are pushing positive change with a presentation of adaptive technologies.

Where

The SIGGRAPH 2019 will be held at the Los Angeles Convention Center, July 28-August 1.
