

The Climate Creatives Challenge

Category: [Multiple Disciplines](#)

Deadline: August 14, 2022

Website: graphiccompetitions.com

The Climate Creatives Challenge is setup to foster new and novel approaches for communicating the impacts of climate change + benefits of adaptation + resilience.

Theyâ€™re looking for entrants to explore the themes beyond the traditional bounds and formats in which theyâ€™re typically represented.

The question for this first challenge is: How can we communicate the impacts of flooding (past, present or future) and the benefits of adaptation and resilience?

To encourage different types of creative communication, a broad range of types of entry submission will be accepted, including; Illustration, photos, video, poetry & prose, audio, sculpture.

There is no entry fee.
