

The Climate Creatives Challenge #2

Category: [Multiple Disciplines](#)

Deadline: January 13, 2023

Website: graphiccompetitions.com

The **Climate Creatives Challenge** is a series of design competitions, the aim of which is to help support new and novel approaches for communicating the impacts of climate change and the benefits of mitigation, adaptation and resilience. It is sponsored by Natural England and The Environmental Design Studio and supported by the WWF.

The question for this second challenge is: How can we communicate the impacts of climate change on a habitat and/or species and the benefits of mitigation, adaptation and resilience?

To encourage different types of creative communication, a broad range of types of entry can be submitted, including: Illustration, photos, video, poetry & prose, audio, sculpture.

The challenge is open to; designers, filmmakers, architects, programmers, engineers, musicians, sculptors, illustrators, storytellers, scientists, ecologists, data visualisers, geographers, social scientists, environmentalists... anyone with a creative concept that could help communicate this theme. You don't have to be a professional or in a team.

There is no entry fee.

Eligibility

Open worldwide to people of all disciplines and creative backgrounds.

Prize

1st place: 1,000 GBP (*approx. 1,225 USD*)

2nd place: 750 GBP

3rd place: 500 GBP

and 250 GBP for each of the 20 commended entries.

Winning and commended entries will feature in an exhibition and within the second Climate Creatives Challenge
